The Bogus Primary Election.

We expected that our good neighbor of the Enquirer would come out in support of the plan adopted by the City Committee for scearing to themselves the appointment of delegates to the Congressional Convention; but ve had not expected it to treat the question unfairly. The Enquirer professes to believe -what it is impossible for it to believe if it has read the Whig and the Dispatch-that the opponents of the plan in question are op posed to a primary election. We have not met a single advecate of the committee's plan who is willing to discuss it upon its merits. All of them try to humbug the people. Let us have a fair discussion, neighbor, or none at all.

We need offer no better evidence that the Enquirer has misrepresented our positionne, we are on too good terms with its editor to use that expression, so let us say-mistaken our position than the fact that we can quote the very arguments that it offers against the State Committee's plan as being in favor of this latter plan and against the City Committee's plan.

Thus, we declare that we are in favor of a primary election; that we have advocated that plan of nominating candidates for years. We declare, in the Euquirer's words, that "the old plan of primary meetings was very " generally obected to. It was asserted that "these meetings were always packed in the " interest of a particular candidate; that the "choice of the people was sometimes de-" feated by the failure of delegates to vote "as they were instructed; that combinactions which resulted in the choice of a mi-"nority candidate were made by dele-"gites when assembled in convention; and · other objections of a similar character were " urged." We declare further, in the Eaquirer's werds, that the Dispatch "cares only for the success of the Conservative " party. We desire nothing but a full, fair, " free expression of the popular will. The "interests of individuals may be very impor-"tant to themselves and their friends, but "we utterly deny the doctrine of claims "upon the party set up by anybody. The party has claims upon any citizen who can "best serve the State. The people understand their own needs and will declare "their own choice. They do not need half was much dry-nursing and doctoring as some people seem to think. They demand "in this election, the importance of which "they appreciate, the nomination of the "man whom they prefer. There is no need " of alarm upon the part of the timid or the "anxious. Their choice will be a wise one " we have no doubt, and for our part we are "willing to abide it. We have no axe to "grind, and shall not suffer our columns to "be used to depreciate any candidate or "build up the political fortunes of any man," Now, we have reaffirmed nearly all that

We tell the Enquirer that the man who gets the nomination in Richmond under the plan laid down by the City Committee-the man who, it will thus appear, has engineered a move- or \$10 a year. You will also get all ex- to the prepayment of postage on newspa ment in the interest of self rather than in the interest of the Conservative party-the man who thus treats with contumely the Conservatives of Hanover, Caesterfield, Louisa, Caroline, Henrico, and Goochland, will stand no more chance of getting the strength of the party vote in those counties than he will of being elected President or United States senator. He will ruin his prospects for this year and forever. and will do much to insure the election of a Republican to the House of Representatives. Such a want of good faith-such treatment of Virginia gentlemen who honorably aspire to serve their fellow-citizens in Congress--such a wanton outrage upon distinguished and honored men in the various counties of the district-such an ignoring of all aspirants outside of Richmond-would ruin the prospects of the candidate who might be selected under the plan that thus heaps wrong upon wrong and contumely

upon contumely. For let it be observed that the City Committee is to appoint the delegates-not the people-and that these delegates are to be appointed upon the recommendation of the man who expects to be elected to Congress by the votes of the Conservatives of Caroline, Chesterfield, Hanover, Goochland, Louisa, and Henrico! He is to nominate his delegates-his willing servants-and they are to go into a convention with the gentlemen that may be appointed from the counties to confer together and nominate a candidate! The country delegates come to confer as brethren with us, hand and foot, appointed by the City Committee upon the recommendation of the candidate .that may happen to get one-fifth or one-sixth of the Conservative vote of Richmond! That would be a tempting feast to invite our country friends to. For let it be remembered that the plan proposed would not allow WALKER, WISE, NEESON, OULD, KEILEY. QUESENBERRY, CLOPTON, COX, WHITE, HOL-LADAY, and the rest of the aspirants, to recommend for appointment a number of delegates proportioned to the popular vote that each of them shall get, but concentrates the solid vote of each ward in Richmond against any and every aspirant in the country, and also against every aspirant in Richmond who may happen not to get as large a vote as some other man! If WALKER gets in Jefferson Ward 250 votes, WISE 240, NEESON 230, OULD 220, KEILEY 210, QUESENBERRY 200, CLOPTON 190, WHITE the papers raise such a clamor against the 180, and Holladay 170, the whole delegation new postal law as will induce Congress to for several years in this county .- Clark as to be appointed upon the recommendation | repeal it. That is ter which has just been given to the delectable plan which is commended to the world explains Tilton's insolence us as a " primary election."

Suppose, now, that in retaliation, the counties determine to have a caucus or primary lection beforehand, and concentrate their strength against the Richmond aspirants: What could be said against such a course? Why have they not as good a right to hold a preliminary caucus and concentrate all their preliminary election and concentrate all of our vote against the country aspirants? They have more votes than we have. It is allowable for the Conservatives in the General will gain no honor for himself .- Baltimore Assembly to meet in caucus to concentrate their strength against the Radicals, but what would be thought and said of those Conservative members who should meet in caucus beforehand and concentrate their strength as against men in their own party?

Cannot you see the bad faith of such an act? Well, let us make it plain to you. Last December there was a United States senator to elect. The Conservative members called a caucus to agree upon a nominee. Now, suppose that one-half of the Conservative concentrated the vote of this half upon one man. When the regular caucus met, what chance would there have been for anybody but the candidate who had already secured in caucus? None. Suppose Withers bad done so. Or WALKER. What honorable man would now recognize him as an associate? The City Committee's plan proposes that the people of Richmond shall be guilty of just such an act of bad faith. Who will approve of it?

Prorating.

The objections to the scheme proposed by some of getting General Manone and the Southern Express to pro-rate are many.

First, General Manone's express will carry no more than a hundred dollars in one package, we are told-that is, will not become responsible for more than that sum.

Secondly, if there are two expresses in use-two services-there will be two charges General Manone must have his fifty cents at least, and the Express its fifty cents at least, on every package, however small. And the same rule will work as to larger packages.

Thirdly, there will be a divided responsibility, or rather no responsibility at all. A package starts from Bristol. It is damaged by the way. The Southern Express Company claims that it was delivered in the conthe Enquirer has said, and yet have not dition in which it was received from Manone. MAJOR ANDREW WASHBURN .- We published yesterday an article which the following document, the original of which Major WASHBURN has shown to us, shows to have done great injustice to him:

COMMONWEALTH OF MASSACHUSETTS,) EXECUTIVE DEPARTMENT, Boston, November 2d, 1866.

To the Adjutant-General: Sir,-In your report for the year 1862, and in all subsequent reports, the military record of Major Andrew Washburn of the Fourteenth Regiment of Massachusetts Volunteers, though literally correct in the statement that he was "dismissed the service," may convey an impression which would do him great injus-

It is true that by the judgment of a courtmartial he was dismissed the service, but that judgment was officially reviewed by the Judge Advocate General of the United States in a decision which was a complete vindication of Major Washburn, and showed the judgment of the court-martial to be erroneous. He afterwards reentered the military service of the United States and served until honorably discharged.

I desire that in your next report you will insert this note in order that Major Washburn may have the credit of the unblemished

record which is his due. Very respectfully, your obedient servant. ALEXANDER H. BULLOCK,

Governor.

A COMPROMISE PLAN. - The City Commit tee is divided into two parties. A majority seem to favor the proposed plan for holding primary elections. A minority, the presiholding primary elections which is in sides can't be right, and that both do not represent the people. We propose, therefore, that the present City Committee resign, and a primary election be held next week or the week after for a new City Committee. Let the people decide the question, and all must and will bow to their decision. Who is opposed to this primary election? Who is afraid to go before the people and ask their judgment upon it?

Mr. Tilton was exceedingly intimate with the Woodhull, nobody supposed that he was such an abandoned poltroon as to scandal which seriously affected the honor of Tilton has maintained a defiant attitude Mr. Beecher's silence. read in the light of the Woodhull revelations, these abject entreaties have a most painful significance. Mr. Beecher may explain everything and put an end to the scandal; he may even acknowledge that he has been guilty of indiscreet conduct, for which he has atoned by years of penitence and sorrow, and perhaps his great genius may enable him to maintain his position as vote upon one man as we have to hold a the most popular preacher in America. If he remains silent judgment will be taken against him on the proofs submitted, which certainly are sufficient to make out a prima facie case. In crushing Mr. Beecher Tilton

All true, Major, except the last sentence We did not mean to include the Herald amongst worthless papers. We'll bet you a new hat if you dare that under the new law your postage will not amount to a dollar for each issue of the Herald. And whatever it is, you may surely add to the price of the Herald.

The primary election plan recently adoptd by the City Conservative Committee is much discussed. The more the people learn about it the less they like it. The Dispatch and Whig condemn it in severe terms. There are such glaring meonsistencies in it that the emmittee will doubtless feel compelled to diust them, though having once committed hemselves to certain principles, it is doubtful if members will willingly make the es sential changes demanded. It is to be hoped that this disturbing influence at work in this district will be removed, and that our whole vote will be centered upon some worthy Conservative who has the strength to beat John Ambler Smith, Esq. - Richmond letter.

classes of ALUM, CHALYBEATE and HEALING. The alum water is shown by actual analysis to be fully equal to the Rockbridge Alum. The chalybeate and healing waters are of very superior excellence. Ample experience in the use of these waters has fully established these great curative properties. They have made many wonderful cures, and are most admirably adepted to the treatment of dyapepsia, liver disease, constipation, scrotia, erysipelas, cutaneous diseases, neuralgla, rheumatism, diseases of the urinary and generative organs, maladies peculiar to the female sex, and general debility. There are a few forms of chronic, physical disease that would not be either entirely cured or greatly benefitted by their judicious use.
